

Your partner in wheels,
from production to distribution

ALUMINIUM COMMERCIAL WHEELS

Distributors of Aluminium Commercial Wheels
for the Truck, Bus and Trailer industry

ABOUT **TIA WHEELS**

TIA Wheels (part of the TIA Group) is a leading distributor of steel and aluminium Commercial wheels for the truck, bus and trailer industry.

We leverage our worldwide supply partnerships to produce high-quality wheels that exceed industry standards at competitive prices. Our investments into our partner manufacturers have transformed us into more than just wheel wholesalers; we are now proud OE-approved distributors of our own TIA Wheels brand.

With a complete range of alloy and steel wheels housed in our dedicated 50,000 sq ft UK facility, trust us to source and supply all aspects of your commercial and industrial wheel requirements.

WHY **TIA WHEELS**

We have solidified our position as a reputable business thanks to our unwavering commitment to quality and excellent customer service from a team boasting over 25 years of industry expertise.

Expert guidance in wheel selection

Our passionate team will provide you with personalised guidance and technical advice to ensure you find your ideal wheels at a competitive price.

A full range of commercial products

From durable steel wheels to polished alloys, we offer a diverse range of commercial wheels to suit a variety of vehicles, from trucks to vans.

Quick delivery

Conveniently located in the Midlands, we can ensure swift responses and delivery arrangements tailored to best suit your needs. We can deliver anything from a single wheel, one pallet to a full trailer load.

OUR ALUMINIUM WHEELS

Forged from a single solid billet of high strength 6061 alloy, our aluminium wheels are T6 heat-treated for increased fatigue strength and forged using a 10,000 tonne forging press.

- » High corrosion resistance aluminium alloy 6061.
- » High-end CNC, German produced, spinning machine.
- » Automatic CNC digital control machining equipment.
- » Manufactured to conform to European, EUWA & ETRTO standards.
- » TIA's manufacturing partner is IATF 16949 2016 certified.
- » TUV certification.

THE BENEFITS

Great looks - Easy maintenance:

- » Up to 45% lighter than the average steel wheel equivalent.
- » Allows increased payload or extra parts on chassis.
- » Payload increase of 210KG achievable on tractor and trailer set-up.
- » Reduce your operating costs.
- » Increase your profitability.

Substantially improve mechanical properties and stability:

- » Lateral run out optimised with CNC machining.
- » Low tolerance dimensions.
- » Lower unsprung weight.
- » Reduced fuel consumption.
- » Better heat dissipation.
- » Improved tyre wear.
- » Aid to improved brake and tyre life.

CERTIFICATION

TIA Wheels are BS EN ISO 9001: 2005 certified, and all wheels supplied conform to European, EUWA and ETRTO standards of design, manufacture and fatigue testing.

OUR WHEEL FINISHES

ECO SHIELD (ES3)

Our TIA Eco Shield (ES3) finish offers protection against oxidation and further deterioration with an easy-clean finish and with a mirror polish finish.

POLISHED

Our TIA polished finish gives the mirror polished look, and is excellent for those who want their fleet to stand out.

MACHINED

The TIA machined non-polished finish gives your fleet a simple but stylish matt look, where weight is the primary consideration.

Introducing

ES3

*The latest development
in our Eco Shield range*

TIA
WHEELS

NOW ABLE TO WITHSTAND **1,200 HOURS** OF SALT SPRAY!
NON-SPRAY COATED FINISH

The ES3 comes in a full range of sizes to accommodate for all types of commercial vehicles, making it a perfect, more affordable alternative to the ALCOA DURA-BRIGHT.

Through extensive lab testing, our wheels are now able to withstand 1,200 hours of salt spray while a quick wash with light soapy water replaces the need for polishing, ensuring our easy-clean finish keeps your wheels shining, no matter what the weather throws at your vehicles.

WHEEL SPECIFICATIONS

All wheel sizes come in Machined, Polished and Eco Shield (ES3) finishes.

Further sizes are available upon request.

Nuts, donut rings and nut cap covers are available from stock.

No. of Bolt Holes	Bolt Hole Diameter (mm)	PCD (mm)	Centre Hole Diameter (mm)	Disc Thickness (mm)	Offset/HDS (mm)	Load Rating (kg)	Weight (kg)
