

# ITINERIS™ T

Trailer tyre providing superior handling in dry and wet conditions, excellent lateral stability, outstanding wet grip, while ensuring high mileage and tearing resistance.

The tread pattern profile with optimized footprint

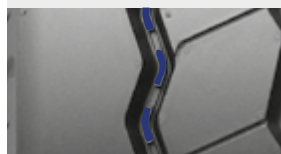

Reduction of the abrasion at the shoulder due to lateral slipping

Zig-zag grooves

Road holding on slippery surfaces

Stone ejectors at the bottom of the lateral grooves

Stone trapping and casing damages prevention

Lateral cavities

Increased ventilation in the buttress area and low heat generation
