

# ST:01™ NEVERENDING™ ENERGY

“A” EU label classification in rolling resistance stands for top fuel efficiency performance.  
Innovative technologies and tread design promote mileage and retreadability.

<b>Innovative shape of central grooves</b>	<b>Lateral reinforced kerbing</b>	<b>5 wide straight circumference ribs</b>	<b>Reinforced bead geometry</b>	<b>High silica content compound</b>
<b>Compound movement reduction and low rolling resistance</b>	<b>Great resistance to impact and rubbing</b>	<b>Great tear resistance</b>	<b>High resistance to lateral impacts</b>	<b>Low heat generation for low rolling resistance, long tyre life and retreadability</b>
